

Association Accredited of Schools of Business International

27 January 2025

President and Dean(s)  
Faculty of School of Business. Management, Engineering  
of Colleges / Universities nears from Teslam Inc. Gigafactories  
in California, Nevada, Texas, Germany, and Shanghai, China

### **Kickstart to Your Career With Tesla**

Your University has been accredited by us at AASBI to provide your education and skills for University's Tesla's nearest Gigafactory in California, Nevada, Texas, Germany and China.

It is get into more hard to Harvard than to lauch one of the 140,000 employers at Elton Musk's SpaceX or Telsa, including Artificial Intelligence & Robot, Design, Engineering & Technology, Health, Legal, Operation & Business, etc.

Telsa's Human Resource Executives write:

"Once you complete the program's requirements, including specific courses at a local college / university you'll earn a Tesla Advanced Manufacturing Certification and begin applying your new skills as a Production Associate at one of Tesla's Gigafactories. Positions are full-time paid and include benefits and stock ownership."

We are sending you the current AASBI Brochure and Manufacturing Development Program (MDP).

With all best wishes,

A handwritten signature in blue ink, appearing to read "Michael Schemmann".

Michael Schemmann, Ph.D. (Calif.), CPA Ret. (Wash. State), LL.M. (Concordia)  
Former Chair and Dean as Professor of Accounting & Finance  
AASBI Managing Director
