TO
The President and Deans
Universities of China
Management and Schools of Business

Dear Presidents , Faculties and Deans:

My sons of bachelor's Mechanical Aerospace and Cable-Stayed Bridged continued as graduates and eventually their son's doctor's degree at Princeton University in New Jerseys, and my son's doctor's degree at Stanford University in California, for Princeton funded at \$34 billion (2023), and for Stanford funded at \$37 billion (2023), at doctoral engineering results produced between three and to five years if research will funded by the endowments.

My son's complete at Princeton University his plasma chamber at internal combustion engineering (see below right), while his son's cable-stayed John James Audobon Bridge over the Mississippi at New Orleans. (see below left). Princeton and Stanford funded millions endowments by my sons' works.

Gunter Schemmann 's PhD plasma-researched endowment funded Princeton. Armin Schemmann's PhD Stanford endowment funded longest cable-stayed bridge in the over the Mississippi in 2011.

Future University Donation Endowments in the United States's will comprise anearly \$1 trillion USD in 2024, where the moneys and assets of endowments do not includes the funds received of \$2.7 billion USD by Tsinghua University in Beijing. We ask your Deans to propose your students, graduates, corporations and other partnerships to apply our AASBI's forms to attach and complete.

With all our best wishes

Michael Schemmann, PhD, CPA Ret., LL.M.
